**INFORMATION CIRCULAR  
GNLU/IC/14/2014**

**Subject: Driving Licence**

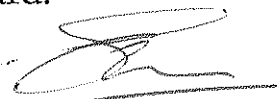

While we all try to remain law-compliant citizens, we, may at times, due to negligence or carelessness or similar other factors, evade our duty as required by law. Possession of valid driving licence by drivers is required as per applicable laws. Several of you may be using or driving personal vehicles. The consequences of non-possession of valid driving licence can attract penalty and in cases of accidents, depending upon the applicable norms, harsher punishments.

It is in the interest of yourself, family members, near and dear ones that you carry valid driving licence while driving vehicles. Similarly, users of the vehicles, too, shall insist upon using only those vehicles that are driven by holders of valid driving licence.

To protect individual interest and render help in this regard, the University will allow parking of vehicles in the designated areas only if one is in possession of valid driving licence. Failure to display the licence will lead to prohibition of parking.

The University expects full cooperation from all in this regard.
