GNLU MBA - FINANCIAL MANAGEMENT AND BUSINESS LAWS... A PROGRAMME FOR FUTURE BUSINESS AND LEGAL LEADERS AND STRATEGISTS

Contemporary business environment has witnessed unprecedented complexities in terms of Institutions, Instruments and Regulations. With the large scale of integration across the globe, national and international regulatory framework continue to shape the destiny of the institutions. Indian and Chinese economy have intertwined messages for the whole global business and economic community. The dynamic and unprecedented changes happening in the business and legal landscape of American, European and Asian economies call for prompt understanding of the business and legal issues in integrated manner. The Economic Crisis of 2008 in US and European markets, Rising Indian Growth Story, Chinese economic upheavals and the African Rise, can only be explained through an integrated business and law perspective. The micro issues and challenges posed by these big stories leave little time for institutions, let alone individuals, to prepare and effect timely response. A businessman without good legal knowledge or a lawyer without good business practices knowledge is doomed to be swept away in fraction of time. We are living in indeed a most unstable and unpredictable business and legal environment. There are certain issues and challenges which can be only resolved through legal actions. In view of this dynamism, creation of competence and skill set in the domain of financial management and business laws remain a major challenge.

With the objective of creation and dissemination of specialized knowledge, skills and abilities in the above disciplines, GNLU has initiated a two-year full time residential MBA (Financial Management and Business Laws) programme.
