GNLU PRESS NOTE No. 18/2021

Gujarat Government granted Rs.20 Lakhs to Gujarat National Law University under its Student Startup and Innovation Policy

Gandhinagar, April 01, 2021: Gujarat Government granted Rs.20 Lakhs to Gujarat National Law University (GNLU) under its Student Startup and Innovation Policy to promote innovation and entrepreneurship among students.

The Government has released this grant after reviewing the utilization data of a similar grant to GNLU in 2017.

GNLU established GNLU Legal Incubation Council (GLIC) in 2016 to promote the spirit of innovation and entrepreneurship among law students. GLIC has incubated 16 student startups. The prominent among them are:

LawBriefs is a legal service platform that prepares a case summary of lengthy judgments to understand them easily. LawBriefs has won an award as one of the five best student startups across Gujarat under SSIP Policy. It has also won the first prize in The Indian Entrepreneur Summit at IIT Kanpur.

The Law Learner attempts to acquaint everyone with the laws in a new way. It organizes certificate courses in law subjects, conducts competitions, publishes blogs, and provides internships to law students. It has won the National Business Plan Competition "Insight" organized by NMIMS Mumbai in 2019.

LexADR is a unique legal service platform that aims to provide solutions to alternative dispute resolution mechanisms by creating a complete database of case briefs of all Indian judgments relating to ADR and making the decision understandable with Case Tree™.

Law On Door is a unique training and learning platform to provide the best legal materials and information at your doorstep. LOD aims to create a database of online videos on all the law subjects for students' convenience.

Legal Intern provides curated and verified contact information of the Lawyers and Judges across various forums in the country. The listing also includes area and court of practice, details of the Internship Program, eligibility requirements, Ideal time to apply, reviews by former interns, etc. It helps law students to find the right internship in line with their long term career goals.

Gujarat National Law University

RegMaster is an easy-to-navigate, automatically updated, online tool to help financial technology ("FinTech") firms understand and keep track of changes to regulations easily, affordably, and efficiently.

Criminal Law Review is a website created to assist lawyers, law students, professionals, academicians, researchers, and others interested in criminal law. It is the only website that offers services solely in the field of criminal law.

"GNLU strives to create diverse opportunities for students so that each student can pursue his long term career goals. GNLU Legal Incubation is a step in that direction. GNLU takes pride in being the only National Law University in the country to have an incubation council. We are thankful to the Government of Gujarat for their support," said GNLU Director Prof (Dr) S. Shanthakumar.
