

ADVANCED TRAINING PROGRAMME on KOHA LIBRARY MANAGEMENT SOFTWARE

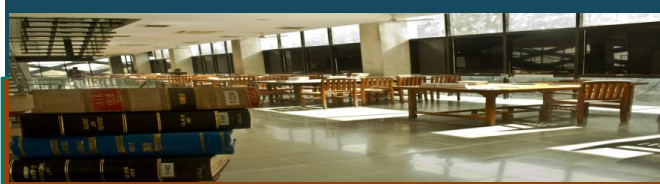

27- 28 APRIL 2019

About the Programme

UNESCO was the top international body, which had developed first library automation software called CDS/ISIS and many new software came after. INFLIBNET has developed SOUL, INFLIBNET has also launched SOUL 2.0. There are many commercial and open source software like Libsys, e-Granthalaya, Sanjay etc.

Now, one new open source software in limelight and libraries across the globe are shifting to this new software “koha”. Koha is fastest growing library automation software, in India also many libraries have embraced Koha.

Demand for koha is huge and this demand led me to organize two days training program on Koha LMS.

Main Objectives of the Training Programme

- ❖ To enhance basic Koha software skills and expertise in librarianship.
- ❖ To assist library professionals to learn more about Koha Library automation software.
- ❖ To develop competent library professionals and prepare them for career progression and to occupy responsible positions.
- ❖ To provide them opportunities to updates themselves in the area of computer technology, which will increase their library management and functions skills.
- ❖ To create a confidence among law library professionals with better computer skills. .
