ONE WEEK NATIONAL LEVEL ONLINE FACULTY DEVELOPMENT PROGRAM USING ADVANCED TOOLS AND TECHNIQUES FOR QUANTITATIVE & QUALITATIVE DATA ANALYSIS (SPECIAL FOCUS ON JAMOVI & NVIVO)

Jointly Organised by
Gujarat National Law University, Gandhinagar
&
Law Teachers India

September 6 – 12, 2024 | 07:00PM – 08:30 PM IST

Objectives of the Program:

This program is for those who are new to the research or early-stage researchers, as well as academicians who are interested in using JAMOVI and NVivo software to assist with the tasks of quantitative and qualitative data management and analysis.

Program Schedule: September 6 – 12, 2024 | 07:00PM – 08:30 PM IST

Quantitative Data Analysis using JAMOVI September 6 – 9, 2024	Qualitative Data Analysis using NVivo September 10 – 12, 2024
<ul style="list-style-type: none"> Framing and Testing of Hypothesis How to choose right statistical techniques based on the data Data Analysis using JAMOVI <ul style="list-style-type: none"> Installation of JAMOVI Software Main features of JAMOVI Data entry, coding and transformation Preparation of right charts & tables for the selected data Performing Descriptive Statistics Parametric & non-parametric tests: T-tests; ANOVA & Chi-square tests; Correlation tests; Regression tests 	<ul style="list-style-type: none"> Overview of Qualitative Research methods Data analysis using NVivo <ul style="list-style-type: none"> Installation of NVivo trial software Managing your NVivo workspace; Dealing with text-data / interview transcriptions Dealing with non-text data (audio, video, and image files) Recapture for Importing datasets from social media Data visualization techniques Data analysis approaches

The JAMOVI is a free and open statistical software that bridges the gap between researchers and statisticians. This workshop will help the participants choose the proper statistical techniques and improve their analysis by applying various statistical methods using JAMOVI.

NVivo is a tool used to analyse qualitative data and investigate and understand non-numerical data. The program offers solid features for reporting, querying, visualising, and organising data from social media, focus groups, surveys, interviews, and online content.
