Sustainable Development Goals and Disability Inclusion: Policy, Implementation and Way forward

In September 2015, India signed the declaration on the 2030 Agenda for Sustainable Development at the United Nations Sustainable Development Summit, formalizing its commitment to pursuing and achieving the seventeen Sustainable Development Goals. What strategies will be used to achieve the Sustainable Development Goals? Countries will be in charge of implementation and success based on their sustainable development policies, plans, and programs. The Sustainable Development Goals (SDGs) will guide nations in aligning their objectives with their international obligations. According to UN guidelines, the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development — approved by global leaders at a historic UN Summit in September 2015 — formally entered into effect on January 1, 2016.

This book aims to publish high-quality research papers on **‘Sustainable Cities and Communities: A Social Sustainability Perspective**, a hot topic.
